ABOUT ME

Motivated and detail-oriented B.Tech Computer Science and Business Systems student with a strong focus on UI/UX design and frontend development. Experienced in designing intuitive and user-centric digital interfaces through wireframes, prototypes, and responsive web designs. Skilled in tools like Figma and modern frontend technologies, with the ability to translate user requirements into visually appealing and functional designs. Hands-on experience in developing projects such as e-commerce platforms and travel websites, ensuring usability, accessibility, and design consistency. Passionate about creating seamless user experiences, conducting basic usability analysis, and collaborating with teams to deliver high-quality digital products. Strong problem-solving mindset with an interest in improving user interactions and optimizing overall product experience.

TECHNICAL SKILLS

- **Design & UI/UX Tools:** Figma, Adobe Illustrator, Canva, Adobe XD, Photoshop
- **Wireframing & Prototyping:** InVision, Wireframe.cc
- **Web Technologies:** HTML, CSS, JavaScript
- **Programming Languages:** Python, Java
- **Backend:** Java Spring Boot
- **Databases:** MySQL, Oracle, SQL
- **Typography, Layout Design, Visual Communication**

PROJECTS

Amazon-Inspired E-commerce Interface – Frontend Development

- Engineered a visually structured e-commerce web interface replicating real-world online shopping layouts.
- Crafted reusable UI sections such as product displays, navigation menus, and promotional panels.
- Applied responsive styling techniques to enhance layout consistency across different screen sizes.
- Published the project online using GitHub Pages for accessibility and demonstration.

Travel & Tourism Website – Frontend Development Project

- Developed a responsive travel and tourism website with structured navigation and destination sections using HTML, CSS, and JavaScript.
- Applied basic SEO techniques such as keyword optimization, meta tags, and content structuring to improve search visibility.
- Designed user-friendly UI with responsive layouts and call-to-action elements to enhance user engagement and support business development goals.
- Deployed the project using GitHub Pages for live access and portfolio demonstration.

Intelligent Traffic Monitoring System – AI & Computer Vision

- Developed an automated traffic analysis system capable of vehicle detection and number plate recognition from video data.
- Utilized YOLOv9 and OCR techniques to identify vehicles and extract registration details with improved accuracy.
- Implemented logical validation rules to enhance data reliability and minimize incorrect detections.
- Processed video streams using Python and OpenCV, designing a scalable workflow adaptable for future real-time deployment.

WORK EXPERIENCE

Freelance UI/UX Designer – E-Commerce Website (Sweet Shop)

- Designed a user-friendly e-commerce interface using Figma for a sweet shop business.
- Developed responsive layouts to ensure smooth usability across mobile and desktop devices.
- Structured product displays and navigation to improve customer browsing experience.
- Delivered a client-ready UI design to support online product presentation.

Freelance Graphic Designer – Corporate Company Profile

Client: AL IHSAN Development FZ-LIC

- Designed a 10-page corporate company profile using Canva.
- Developed structured layouts with professional typography and branding.
- Delivered a client-ready PDF brochure for business presentation.

Cloud Computing Intern - Quantanics TechServ Pvt Ltd, Madurai

- Gained hands-on experience in VM configuration, containerization fundamentals, and Google Cloud Platform (GCP) services.
- Understood and applied the complete application deployment lifecycle, including setup, testing, and deployment processes.
- Contributed to end-to-end deployment of web applications for live environments, including configuration, testing, and performance optimization.

ACHIEVEMENTS

- Secured 2nd Prize in Paper Presentation at EINSTEINIUM-2K24, Einstein College of Engineering, Tirunelveli, for presenting innovative ideas on Gemini.
- Secured 1st Prize in Poster Presentation on Waste Reduction Techniques at Ramco Institute of Technology, Rajapalayam.
- Secured 2nd Prize in Poster Presentation at SPARKIN'2K24, P.S.R. Engineering College, Sivakasi, for presenting concepts on Neuralink with effective visual communication.

EDUCATION

B.Tech – Computer Science and Business Systems

Ramco Institute of Technology, Rajapalayam

2022 – 2026 [CGPA: 7.61]
